

Finance Project Controller

TenneT is growing fast to realize its strategic ambitions. We play a leading role in driving the energy transition. We are looking for a passionate Finance Project Controller at our location Arnhem who will contribute to this.

Your contribution to TenneT

The Business unit LPO - is the beating heart of the energy transition - with the largest infrastructural projects in EU you will be an essential member to achieve the sustainable targets of the Netherlands and more. Monitoring on the goals, risk based, keeping this balance of the challenging business partner to reach the goals set.

As Finance Project Controller you are responsible for the (financial) planning process and the related management reporting of the Cluster Borssele. Key are reliability and predictability. In this growing and developing environment you are empowered to advice – on request or proactively – and to implement the necessary solutions.

In close collaboration with your colleagues you ensure the reliable and predictable reporting for the Cluster Borssele which consists of three grid connection systems and the offshore hybrid asset - LionLink.

- In this role you work together and challenge the team regarding the forecasts and IPP and aggregates the quality assured budget / forecast, which is connected to an integrated planning.
- You act as team member for the contracts to manage claims, cashflow and change requests.
- You work in a dynamic project environment.
- You make the timely and adequate management reports, e.g. decision, change requests and exception reports.

Your profile and background

- Relevant HBO/WO education (NL), vocational training in business administration with advanced qualification in Controlling or University degree in finance /Business Administration or commercial graduate in business administration
- Alternatively you have a comparable qualification/experience.

Additional information

- As soon as possible
- The weekly working time is 32 to 40 hours

This will be our challenge

Business Guidance provides advice for strategic, operational and financial planning and forecasting. We monitor, analyse and improve performance. Business Guidance safeguards TenneT's financial health by ensuring transparency, setting (financial) targets and reporting on the achievement of those targets.

TenneT is a leading European grid operator committed to a secure and reliable electricity supply - 24 hours a day, 365 days a year. We are shaping the energy transition for a sustainable energy future. As the first cross-border transmission system operator, we plan, build and operate an almost 24,500 kilometres long high and extra-high voltage grid in the Netherlands and Germany and are one of the largest investors in national and international electricity grids, on land and at sea. Every day, our 6,600 employees give their best and ensure with responsibility, courage and networking that more than 42 million end consumers can rely on a stable electricity supply.

Lighting the way ahead together
