

Security Specialist (m/f/d)

TenneT is growing fast to realize its strategic ambitions. We play a leading role in driving the energy transition. We are looking for a passionate **Security Specialist (m/f/d)** at our location/s **Bayreuth** or **Lehrte** who will contribute to this. That might be you?

Your contribution to TenneT

The Security Specialist is responsible for implementing the information security plan and responding to security events. He/she ensures the security and integrity of TenneT's critical information and processes, making sure the light keeps on. Further responsibility of the Security Specialist lies in safeguarding all data, devices, infrastructure and systems against malware, exploit attempts, intrusions and attacks.

Information Security Plan

- Implement the information security plan based on the corporate security plan, compliant with the required guidelines and German regulatory laws and requirements
- Deploy and maintain information security technologies with respect to the latest technological advancements in the field of cybersecurity
- Identify critical systems and data to implement protective measures for these assets
- Support Service Managers on operational information security topics
- Provide security awareness, education, best practices, ISMS training and communication to stakeholders and TenneT as a whole

Incident response

- Establish, deploy and test an information security response plan, effectively resolving information security incidents
- Monitor systems and data for security events to detect potential security incidents
- Investigate security incidents, determine the extent of damage and implement corrective actions to prevent similar incidents
- Report security incidents to relevant stakeholders and take appropriate steps

Your profile and background

- Completed Master/Bachelor education (preferred computer science, IT/cyber security or similar), supplemented by CISSP, CISM, EDP audit and/or CISA
- At least 5 years of practical IT Security, Risk & Compliance experience
- Demonstrated knowledge of the fields of information security, IT compliance management and risk management
- Strong oral, written and presentation skills
- Proficient in the English and German language, both written and oral

Additional information

- Desired start date: as of 01.08.2024
- The weekly working time is 37 hours
- The position is unlimited
- Job interviews for this position will be (partly) in English

Our recruiting process

In our online-application-form you can apply within only some minutes as long as this job is posted. Afterwards we screen your application and get back to you as soon as possible. Our selection process consists of one screening call (20-30 minutes) and two 1-hour interviews.

Did you know? You can also listen to energy! Our podcast "along the lines" informs you 24/7 about current topics of the energy world.

This will be our challenge

BTO will drive security of supply, energy transition, organizational and financial health through digital, data and analytics. BTO will secure solid foundations through seamless end-user services (UX), industry-leading cybersecurity setup and resilient data centers and cloud infrastructure. BTO will have consistent business/BTO alignment, strategic partnerships with vendors and clear standards on architecture, vendor & portfolio management and security. BTO will unlock value of data and digital by building all the necessary enablers (incl. data platform, data governance processes, capabilities) and embedding innovation initiatives into business roadmaps.

TenneT is a leading European grid operator committed to a secure and reliable electricity supply - 24 hours a day, 365 days a year. We are shaping the energy transition for a sustainable energy future. As the first cross-border transmission system operator, we plan, build and operate an almost 24,500 kilometres long high and extra-high voltage grid in the Netherlands and Germany and are one of the largest investors in national and international electricity grids, on land and at sea. Every day, our 6,600 employees give their best and ensure with responsibility, courage and networking that more than 42 million end consumers can rely on a stable electricity supply.

Lighting the way ahead together
