

Internship Communication

TenneT is growing fast to realize its strategic ambitions. We play a leading role in driving the energy transition. We are looking for a passionate student for an internship at our head office in Arnhem who will contribute to this and that might be you?

Your contribution to TenneT

The unit Customers & Markets has room for an internship as Communication Advisor. For this role we seek an energizing student who knows how to set the right tone, has interest in working with different internal and external stakeholders and wants to contribute to the challenges of the energy transition.

Your profile and background

In your role as Communication Advisor, your focus will lie on in- and external communication for the unit Customers & Markets (CMN). You will help the colleagues in CMN with the communication strategy and market communication to TenneT's customers and market parties.

What do we expect from you?

You are in a HBO or WO education in the area of Communication.
You have strong communication skills, are persuasive and have a confident writing style.
You are proactive, you have a "can do" mentality and positive energy
You have knowledge of various communication tools and channels.
You are a team player that can also work independently.
Your knowledge of the Dutch language is at least at level B2.
You have good English talking & writing skills.

This will be our challenge

The department Customers & Markets is there to position TenneT as a thought leader in the European electricity markets. This way we support the operation of an efficient and resilient electricity system at the lowest costs.

AI and more about TenneT

Since we use AI as part of our recruiting process, we would like to create transparency and clarity at this point. The AI serves exclusively as a supporting and recommending tool to make our processes even faster and more efficient. At no time are automated decisions made.

TenneT is a leading European grid operator. We are committed to providing a secure and reliable supply of electricity 24 hours a day, 365 days a year, while helping to drive the energy transition in our pursuit of a brighter energy future – more sustainable, reliable and affordable than ever before. Our recruiting process

In our online-application-form you can apply within only some minutes as long as this job is posted. Afterwards we screen your application and get back to you as soon as possible.

our role as the first cross-border Transmission System Operator (TSO) we design, build, maintain and operate over 25,000 kilometres of high-voltage electricity grid in the Netherlands and large parts of Germany, and facilitate the European energy market through our 17 interconnectors to neighbouring countries. We are one of the largest investors in national and international onshore and offshore electricity grids, with a turnover of EUR 9.2 billion and a total asset value of EUR 45 billion. Every day our 8,300 employees take ownership, show courage and make and maintain connections to ensure that the supply and demand of electricity is balanced for over 43 million people.

Lighting the way ahead together
