

Sub Project Lead - Cable Installation Nearshore (m/w/d)

TenneT is growing fast to realize its strategic ambitions. We play a leading role in driving the energy transition. We are looking for a passionate **Sub Project Lead - Cable Installation Nearshore (m/w/d)** at our location **Hannover** who will contribute to this. That might be you?

Your contribution to TenneT

You work within an offshore grid connection project and are responsible for the installation of cables in tidal areas until the 10m waterline. Together with your colleagues, you manage the project end-to-end, incl. permit, detailed planning, handover to operations.

- You are in charge of delivering the designed technical scope in accordance with all relevant TenneT and contractual obligations as well as other requirements (permit, safety, legal, technical, work plan, etc.)
- You review relevant procedures, workplans and output; you monitor the EPC contractors regarding the fulfilment of their contractual obligations, esp. high-quality deliverables on time and within budget
- You steer the work and collaboration of TenneT subcontractors, e.g., Client Reps, environmental and other experts
- You supervise the work on site and ensure that all documentations are delivered according to TenneT standards
- You report to the project on the work of the EPC contractors, esp. progress, change

Your profile and background

- An academic level of working and thinking; a university degree (FH/H) in civil/mechanical engineering or comparable qualifications
- Work experience in offshore cable installation, preferably regarding tidal areas; experience in managing contractors
- Good written and spoken language skills in German and English (both necessary) as communication with German authorities and international partners is one of the main tasks
- A high level of independence and initiative; strong communication and teamwork skills
- Willingness to travel and to work on construction sites (coastal area) during building activities is important, therefore also a driver's license (class B) is needed

This will be our challenge

Large Projects Offshore is a key contributor to the energy transition. The Unit is responsible for the current and future development of the offshore grid as a whole and subsequently for the development and realization of the DC interconnectors and the Offshore Wind Farm grid connections in both the German and Dutch sectors of the North Sea.

Additional information

- Desire start date: as soon as possible
- The weekly working time is 37 hours
- The position is unlimited
- Job interviews for this position will be (partly) in English

Our recruiting process

In our online-application-form you can apply within only some minutes as long as this job is posted. Afterwards we screen your application and get back to you as soon as possible. Our selection process consists of two interviews (one online + one on-site).

Did you know? You can also listen to energy! Our podcast "along the lines" informs you 24/7 about current topics of the energy world.

TenneT is a leading European grid operator committed to a secure and reliable electricity supply - 24 hours a day, 365 days a year. We are shaping the energy transition for a sustainable energy future. As the first cross-border transmission system operator, we plan, build and operate an almost 24,500 kilometres long high and extra-high voltage grid in the Netherlands and Germany and are one of the largest investors in national and international electricity grids, on land and at sea. Every day, our 6,600 employees give their best and ensure with responsibility, courage and networking that more than 42 million end consumers can rely on a stable electricity supply.

TenneT is an equal opportunity employer for ALL and is fully committed to the principles of equal employment opportunity to ensure that all applicants and employees are considered for recruitment, promotion and employment regardless of their ethnic origin, skin colour, religion or belief, gender, national origin, age, disability, sexual identity, marital/family status.
