

Construction Manager Offshore Station (m/f/x) - Indonesia

TenneT is growing fast to realize its strategic ambitions. We play a leading role in driving the energy transition. We are looking for a passionate **Construction Manager** at our location/s **Hanover and Batam, Indonesia** who will contribute to this and that might be you?

Your contribution to TenneT

As a **Construction Manager** you are responsible for the quality assurance during fabrication of the offshore converter station and contribute to success of the overall project execution. Therefore you are in close contact to the HVDC/platform project team (PL Offshore Platform, PL HVDC, all other SPLs, Technical Specialists, GFO -O personnel (e.g. OR, or GCC) and the HSE Manager). You will be reporting to the Lead Yard Management hierarchically, and to Lead HVDC/ Platform functionally and operationally.

- You are **responsible for the coordination of the site engineers and the local inspectors** in an internationally located construction site. You and the site team are responsible for day-to-day quality assurance and site surveyance within the respective yard.
- You are **responsible for the on-site quality assurance** by means that the offshore platform is fabricated meeting TenneT's standards, policies and further applicable (local) regulations
- You **functionally lead a team of site inspectors, coordinate the QC personnel** on a day to day basis and are part of the **site leadership team** to enable continuous improvement
- You **create transparency** on the fabrication progress, risks and non-conformities by formal reporting and **close communication** with the Project Manager and Lead Yard Management
- You **support the Lead Yard Management** in developing and implementing professional site management processes and tools
- Contributing to the **standardisation** of project management approach and optimisation of **synergies** between several **HVDC-systems and off-shore platforms**

Your profile and background

- You have preferably an **academical degree** or other comparable training combined with many years of experience in a comparable role
- You are a **experienced** construction manager with at least **5+ years working experience** in managing site/ construction teams in and international environment, **preferably in construction of complex infrastructure projects, HVDC or oil and gas**

Additional information

- As of **01.10.2024**
- The weekly working time is **37 hours**
- The position is **unlimited**
- Job interviews for this position will be (partly) in **English**. Please send us your application document in English as well

Our offer

We are family friendly and flexible

Health - your basis

Modern working environment

Did you know? You can also listen to energy! Our podcast "along the lines" informs you 24/7 about current topics of the energy world.

platforms

- You are **dynamic, enthusiastic, intrinsically motivated** without 'nine to five-mentality'
- You are **fluent in English, additional languages (e.g. Deutsch)** **of advantage**
- **You are willing to work and live abroad in a yard location environment (Batam – Indonesia) for an extended period of time i.e project duration (4-5 years)**
- You are preferably **IPMA D** certified or open to obtain

This will be our challenge

Large Projects Offshore is a key contributor to the energy transition. The Unit is responsible for the current and future development of the offshore grid as a whole and subsequently for the development and realization of the DC interconnectors and the Offshore Wind Farm grid connections in both the German and Dutch sectors of the North Sea.

TenneT is a leading European grid operator committed to a secure and reliable electricity supply - 24 hours a day, 365 days a year. We are shaping the energy transition for a sustainable energy future. As the first cross-border transmission system operator, we plan, build and operate an almost 24,500 kilometres long high and extra-high voltage grid in the Netherlands and Germany and are one of the largest investors in national and international electricity grids, on land and at sea. Every day, our 6,600 employees give their best and ensure with responsibility, courage and networking that more than 42 million end consumers can rely on a stable electricity supply.

TenneT is an equal opportunity employer for ALL and is fully committed to the principles of equal employment opportunity to ensure that all applicants and employees are considered for recruitment, promotion and employment regardless of their ethnic origin, skin colour, religion or belief, gender, national origin, age, disability, sexual identity, marital/family status.

Lighting the way ahead together
