

## Project Lead

TenneT is growing fast to realize its strategic ambitions. We play a leading role in driving the energy transition. We are looking for a passionate colleague at our location Arnhem Rijnpoort who will contribute to this and that might be you?

### Your contribution to TenneT

As Project Lead IJvA and NW1 you will be responsible for the Licensing process project within the regional cluster Borssele and Geertruidenberg.

You will report to the Head/director and work closely together with the Project Lead Licensing NW3 and numerous other departments within the TenneT organization.

Your main tasks consist of:

- Manage and control the progress
- Manage internal and external stakeholders.
- Identifying interfaces within your scope.
- Creating an atmosphere in the team focussed on cooperation and solutions.
- Hybrid working from home and from the TenneT office in Arnhem is possible.

### Additional information

- As of 01-04-2025
- The weekly working time is 40 hours

### Our offer

We are family friendly and flexible

Health - your basis

Modern working environment

Attractive remuneration and social benefits

Personal development

### Our recruiting process

In our online-application-form you can apply within only some minutes as long as this job is posted. Afterwards we screen your application and get back to you as soon as possible.

### Your profile and background

- You have a Bachelor's or Master's degree in a relevant (technical) field of expertise.
- You have at least 5-10 years of relevant experience in the offshore wind industry
- You are team-oriented, assertive, independent, and open-minded.
- You are dynamic, enthusiastic, intrinsically motivated, responsible, and ownership-driven.
- You have excellent communicative and negotiation skills and will look after TenneT's interests
- You are willing to travel
- You are fluent in English, both verbal and in writing.

### This will be our challenge

Large Projects Offshore is a key contributor to the energy transition. The Unit is responsible for the current and future development of the offshore grid as a whole and subsequently for the development and realization of the DC interconnectors and the Offshore Wind Farm grid

connections in both the German and Dutch sectors of the North Sea.

## AI and more about TenneT

Since we use AI as part of our recruiting process, we would like to create transparency and clarity at this point. The AI serves exclusively as a supporting and recommending tool to make our processes even faster and more efficient. At no time are automated decisions made.

---

TenneT is a leading European grid operator. We are committed to providing a secure and reliable supply of electricity 24 hours a day, 365 days a year, while helping to drive the energy transition in our pursuit of a brighter energy future – more sustainable, reliable and affordable than ever before. In our role as the first cross-border Transmission System Operator (TSO) we design, build, maintain and operate over 25,000 kilometres of high-voltage electricity grid in the Netherlands and large parts of Germany, and facilitate the European energy market through our 17 interconnectors to neighbouring countries. We are one of the largest investors in national and international onshore and offshore electricity grids, with a turnover of EUR 9.2 billion and a total asset value of EUR 45 billion. Every day our 8,300 employees take ownership, show courage and make and maintain connections to ensure that the supply and demand of electricity is balanced for over 43 million people.
