

Offshore Specialist Transport and Installation

TenneT is growing fast to realize its strategic ambitions. We play a leading role in driving the energy transition. We are looking for a passionate colleague at our location/s Arnhem Rijnpoort who will contribute to this and that might be you?

Your contribution to TenneT

As a **Transport & Installation Specialist** you'll ensure that our offshore converter platforms (2GW) reach their destination in the Dutch North Sea and are installed successfully. Working on impactful yet structured projects, your responsibilities include:

- Overseeing the T&I engineering process
- Managing certification approval processes
- Handling T&I framework contracts
- Coordinating Marine Warranty Surveyor (MWS) and jack-up barge operations
- Supervising load-out, transport, and installation processes from a client's perspective
- Planning and monitoring scour protection installations

Your profile and background

We're looking for a candidate with:

- Willingness to travel globally as required
- A proactive and solution-oriented approach
- Fluency in English for communication in international project teams, Dutch is much appreciated
- Knowledge of offshore platforms and foundation structures (preferred)
- Proven professional experience in load-out, transport, and installation campaigns
- A completed degree in shipbuilding, marine engineering, or nautical technology

This will be our challenge

Large Projects Offshore is a key contributor to the energy transition. The Unit is responsible for the current and future development of the offshore grid as a whole and subsequently for the development and realization of the DC interconnectors and the Offshore Wind Farm grid connections in both the German and Dutch sectors of the North Sea.

AI and more about TenneT

Since we use AI as part of our recruiting process, we would like to create transparency and clarity at this point. The AI serves exclusively as a supporting and recommending tool to make our processes even faster and more efficient. At no time are automated decisions made.

Additional information

- As of February 1st or when suitable
- The weekly working time is 40 hours
- Type of contract is indefinite
- Job interviews for this position will be (partly) in English. Please send us your application document in English as well

At TenneT, you'll have the opportunity to apply your expertise in a calm and supportive environment. We prioritize professionalism and collaboration, allowing you to contribute meaningfully to the energy transition with a sense of stability. Join a team that values impactful work without unnecessary pressure.

Our offer

Our recruiting process

In our online-application-form you can apply within only some minutes as long as this job is posted. Afterwards we screen your application and get back to you as soon as possible. Our selection process consists of one online interview and one live interview at Arnhem Rijnpoort.

TenneT is a leading European grid operator. We are committed to providing a secure and reliable supply of electricity 24 hours a day, 365 days a year, while helping to drive the energy transition in our pursuit of a brighter energy future – more sustainable, reliable and affordable than ever before. In our role as the first cross-border Transmission System Operator (TSO) we design, build, maintain and operate over 25,000 kilometres of high-voltage electricity grid in the Netherlands and large parts of Germany, and facilitate the European energy market through our 17 interconnectors to neighbouring countries. We are one of the largest investors in national and international onshore and offshore electricity grids, with a turnover of EUR 9.2 billion and a total asset value of EUR 45 billion. Every day our 8,300 employees take ownership, show courage and make and maintain connections to ensure that the supply and demand of electricity is balanced for over 43 million people.
