

## Work Planner Offshore

TenneT is growing fast to realize its strategic ambitions. We play a leading role in driving the energy transition. We are looking for a passionate colleague at our location Arnhem Rijnpoort who will contribute to this and that might be you?

### Your contribution to TenneT

We are looking for an experienced and proactive **Work Planner Offshore** to join our team and support the success of our offshore activities in the North Sea. In this role, you'll be the central figure in planning and coordinating maintenance and project operations, working closely with both internal teams and external contractors to ensure the smooth and efficient running of our offshore campaigns.

We currently operate 5 AC700MW Offshore High Voltage Substations and are expanding towards two more high-performance assets designed to support the next generation of offshore wind turbines. As our Work Planner Offshore, you will play a vital role in planning high-quality maintenance and project activities from offshore vessels, directly contributing to our operational success.

#### What will you do?

##### 1. Maintenance & Work Planning:

- Develop and manage detailed offshore execution plans, ensuring they align with departmental goals.
- Work with other planners to ensure efficient resource allocation across different projects.
- Set up and maintain master schedules, offshore schedules, and work plans that are both realistic and flexible.

##### 2. Stakeholder Collaboration:

- Coordinate offshore and onshore trip preparations, ensuring effective communication with internal teams and external stakeholders.
- Oversee material and contractor procurement, managing vendor relationships through SAP.
- Plan and allocate personnel, tools, and transportation for maintenance tasks, ensuring the right resources are available when needed.

##### 3. Efficient Use of Vessel Time:

- Take the lead in ensuring the efficient and effective use of vessel time by coordinating offshore operations with engineering and project teams.
- Monitor progress, adjust plans when necessary (e.g., due to weather changes), and provide updates to key stakeholders.
- Advise the Grid Connection Core Team on any potential exceptions or issues that may require immediate action or prioritization.

### Additional information

- As of 1st of January 2025
- The weekly working time is 40 hours
- Type of contract is indefinite
- Job interviews for this position will be (partly) in English. Please send us your application document in English as well

### Our offer

We are family friendly and flexible

Health - your basis

Modern working environment

Attractive remuneration and social benefits

Personal development

### Our recruiting process

In our online-application-form you can apply within only some minutes as long as this job is posted. Afterwards we screen your application and get back to you as soon as possible.

Lead Mechanical Systems & Structures Grid Field Operations Offshore

#### 4. Continuous Improvement:

- Drive or support the development of improved planning tools and systems, such as rotation plans or progress tracking systems.
- Set up monitoring and forecasting systems to enhance the visibility of project progress.
- Continuously refine activity standards and norms to ensure high performance and efficiency.

#### Who are we looking for?

You are an experienced Work Planner with a background in offshore operations and a passion for working in dynamic and evolving environments. You understand the complexities of offshore projects and can balance multiple tasks and responsibilities with ease. We're looking for someone who thrives in a collaborative environment, values teamwork, and is committed to delivering high-quality work.

#### Why this role could be for you:

- You have several years of experience in planning and coordinating offshore activities.
- You are proactive, detail-oriented, and able to anticipate challenges, solving them before they become problems.
- You enjoy working in a flexible environment where you can plan and execute complex tasks.
- You communicate clearly and effectively with both internal teams and external contractors, ensuring everyone stays aligned on project goals.
- You are motivated to take on a role where you can directly impact the success of offshore projects, while also being supported in your personal and professional growth.

#### Travel Opportunities:

This role includes occasional travel to offshore sites, giving you the opportunity to see firsthand how your planning efforts support real-world operations. You'll collaborate with teams both onshore and offshore, ensuring projects are delivered efficiently and on schedule.

## Your profile and background

Are you an enthusiastic and experienced **Work Planner Offshore** looking to make a significant impact in a dynamic environment? We invite you to join our diverse team at TenneT, where innovation and collaboration are at the heart of everything we do.

#### Your qualifications:

- A Higher Technical School (HTS/BSc.) level is preferred, with a solid foundation in planning or a comparable role.
- Proven experience in a planning function, showcasing your ability to manage complex tasks effectively.
- A passion for automation and digital solutions, along with proficiency in Microsoft Office applications.
- Familiarity with **PowerBI** is a plus, and any experience in writing scripts or macros will set you apart.
- Experience with planning software such as **Primavera P6** or **SAP MRS** is highly valued.
- You thrive in a team-oriented environment and are known for your attention to detail, flexibility, and proactive mindset.
- Strong communication skills, both verbal and written, with an emphasis on active listening and collaboration.
- An analytical approach combined with technical affinity allows you to tackle challenges head-on.
- You are driven to push projects forward, taking ownership and initiative in your work.
- Fluency in English is essential, while Dutch language skills are

advantageous.

- A genuine eagerness to learn and grow within your role, contributing to the professionalization of the Planning Department.
- Experience in offshore, heavy industry, or TSO organizations will give you an edge.

## **This will be our challenge**

Grid Field Operations is executing Field Operations, Maintenance and (Baseload) Projects. We ensure the integrity and safety of our assets entrusted to us, while also ensuring their maximum availability. We make sure that the onshore grids of TenneT is reliable in Germany and the Netherlands.

TenneT is a leading European grid operator. We are committed to providing a secure and reliable supply of electricity 24 hours a day, 365 days a year, while helping to drive the energy transition in our pursuit of a brighter energy future – more sustainable, reliable and affordable than ever before. In our role as the first cross-border Transmission System Operator (TSO) we design, build, maintain and operate over 25,000 kilometres of high-voltage electricity grid in the Netherlands and large parts of Germany, and facilitate the European energy market through our 17 interconnectors to neighbouring countries. We are one of the largest investors in national and international onshore and offshore electricity grids, with a turnover of EUR 9.2 billion and a total asset value of EUR 45 billion. Every day our 8,300 employees take ownership, show courage and make and maintain connections to ensure that the supply and demand of electricity is balanced for over 43 million people.

TenneT is an equal opportunity employer for ALL and is fully committed to the principles of equal employment opportunity to ensure that all applicants and employees are considered for recruitment, promotion and employment regardless of their ethnic origin, skin colour, religion or belief, gender, national origin, age, disability, sexual identity, marital/family status.
