

Process and Quality Management Advisor (m/w/d)

TenneT is growing fast to realize its strategic ambitions. We play a leading role in driving the energy transition. We are looking for a passionate Process and Quality Management Advisor (m/w/d) at our location Hannover will contribute to this and that might be you?

Your contribution to TenneT

- Promote and ensure application of **Business Process Management** (BPM) and **Quality Management** (QM) framework (principles, practices and standards)
- Collaboration in the establishment and further development of the **Quality Management System** and the associated documentation
- Provide and ensure the integrity of the Operations **Offshore process map** and **process landscape**.
- **Develop** and **provide** BPM and QM training / coaching.
- **Documentation** of processes in our process documentation system (ADONIS NP).
- Support for **workflow automation** using the MS Power Platform tools.
- Creation, review and improvement of **process- and quality-related documents** (such as guidelines, work instructions, training documents, templates etc.). Conduct and evaluate BPM and QM assessments at Operations Offshore.

Your profile and background

- **Academic degree** in technical or economical studies e.g. industrial engineering.
- Knowledge of **process modelling tools** (Adonis or other BPMN2.0 based tools).
- Experience with **quality management systems** (DIN ISO 9001). An additional qualification as a TÜV or DGQ auditor is an advantage.
- Experience in using the tools of the **MS Power Platform** (Power Apps, Power Automate, Power BI) desirable. Familiar with setting up easy-to-read report.
- Experience in the **energy sector** and knowledge of the offshore operations & maintenance domain are a clear benefit.
- Very good communication skills in **German and English**.
- You are a genuine **team player** and **effective communication** is one of your passions.
