

Business Management Advisor: Operations Offshore 2GW (m/f/d)

TenneT is growing fast to realize its strategic ambitions. We play a leading role in driving the energy transition. We are looking for a passionate Business Management Advisor (m/f/d) at our location Hannover who will contribute to this and that might be you?

Your contribution to TenneT

- In close cooperation with the Operations Coordinators, you will **manage and monitor** the processing of **OR-relevant (Operational Readiness) work packages during the project phase** and support the preparation of the required progress reports
- **You plan and schedule** OR activities and associated **due dates**
- You plan the work for the coming months in advance, **coordinate the collaboration** and set up **binding agreements with our partner**
- You analyze and prepare the content of **concepts**, execute **SWOT analyses** and prepare **decision papers** together with our stakeholders
- You support **quality improvement** and **process optimization initiatives** and actively contribute to the implementation of improvement potentials
- You support our **onboarding activities** of new colleagues in our growing business and contribute to a high-class **safety culture**

Your profile and background

- You have **successfully completed a degree** in (industrial) engineering, business administration or a natural science. Alternatively, you have a comparable qualification
- Ideally, you already have **professional experience** in **work planning** and **project management** for offshore activities
- **You enjoy supporting your work environment** by utilizing your **structured** way of working, **quick comprehension**, **curiosity** and **initiative** to your advantage
- You are an **intrinsically motivated** person who appreciates working in a dynamic and diverse team. As a **team player**, you contribute to an exceptionally collegial and **performance-oriented team spirit** and demonstrate **strong coordination and planning skills**
- You are prepared to work across locations and countries. **Occasional travel** is part of your everyday working life and you have a class B driving license.
- You have **very strong team and communication skills** in **English and German** (written and spoken)

Additional information

- As of February 2025
- The weekly working time is 37 hours
- The position is unlimited
- Job interviews for this position will be (partly) in English

This will be our challenge

Grid Field Operations is executing Field Operations, Maintenance and (Baseload) Projects. We ensure the integrity and safety of our assets

entrusted to us, while also ensuring their maximum availability. We make sure that the onshore grids of TenneT is reliable in Germany and the Netherlands.

IDE, AI and more about TenneT

As a signatory to the Diversity Charter Germany, we at TenneT are convinced that we can only drive the energy transition forward innovatively with different perspectives and experiences. Therefore, we welcome all applicants - regardless of gender identity, religion, sexual orientation, ethnic background, disability or age. TenneT aims to increase the proportion of women in positions where they are underrepresented. For this reason, we expressly encourage qualified women to apply. We also welcome applications from people without German citizenship.

We welcome applications from people with disabilities. If you indicate your (severe) disability in your application, we will forward your application to our representative for disabled persons so that they can support your application in accordance with paragraph 178 SGB IX.

Since we use AI as part of our recruiting process, we would like to create transparency and clarity at this point. The AI serves exclusively as a supporting and recommending tool to make our processes even faster and more efficient. At no time are automated decisions made.

TenneT is a leading European grid operator. We are committed to providing a secure and reliable supply of electricity 24 hours a day, 365 days a year, while helping to drive the energy transition in our pursuit of a brighter energy future – more sustainable, reliable and affordable than ever before. In our role as the first cross-border Transmission System Operator (TSO) we design, build, maintain and operate over 25,000 kilometres of high-voltage electricity grid in the Netherlands and large parts of Germany, and facilitate the European energy market through our 17 interconnectors to neighbouring countries. We are one of the largest investors in national and international onshore and offshore electricity grids, with a turnover of EUR 9.2 billion and a total asset value of EUR 45 billion. Every day our 8,300 employees take ownership, show courage and make and maintain connections to ensure that the supply and demand of electricity is balanced for over 43 million people.

Lighting the way ahead together
