

Senior Power BI Specialist

At TenneT, we work every day on the electricity grid of tomorrow. Our goal? A reliable, affordable, and sustainable energy system. As a Senior Power BI Specialist within the Data, Analytics, and Process Excellence (DAP) team, you play a crucial role in realizing this ambition. Ready to make an impact?

Your contribution to TenneT

As a Senior Power BI Specialist, you are responsible for transforming raw financial data into reports and data products, ensuring the Netherlands can rely on reliable and sustainable energy. Additionally, you are responsible for:

- **Dashboard Development:** Designing, developing, and maintaining interactive dashboards and reports using Power BI to accurately and efficiently visualize financial data.
- **Dimensional Modelling:** Utilizing data from the TenneT Data Platform, sometimes combined with other data sources, systems, databases, and spreadsheets, to create comprehensive data models for reporting purposes.
- **Performance Optimization:** Optimizing Power BI reports and queries to enhance performance and scalability, ensuring smooth operation with large datasets.
- **Quality Assurance:** Conducting thorough testing and validation of reports to ensure accuracy, completeness, and compliance with regulatory requirements.
- **Documentation:** Creating detailed documentation for developed reports, including data sources, transformations, and calculations, to facilitate knowledge sharing and maintain data integrity.
- **Training and Support:** Providing training and support to end-users on Power BI functionality, best practices, and troubleshooting techniques to maximize adoption across the organization.
- **Continuous Improvement:** Staying informed about industry trends, emerging technologies, and best practices in data visualization and analytics to drive continuous improvement in reporting capabilities.
- **Collaboration:** Working closely with colleagues in the DAP team to achieve shared goals.

Your profile and background

At TenneT, we seek professionals who contribute to the future of our electricity grid. We expect you to bring the right experience and skills to make a valuable impact on our team and mission. What do you bring?

- Bachelor's degree in Finance, Accounting, Computer Science, Information Systems, or a related field; a Master's degree is preferred.
- Solid understanding of financial concepts, accounting principles, and regulatory requirements.
- Proven senior work experience as a Power BI Developer or Business Intelligence Analyst, with a focus on financial reporting and analysis.

Additional information

TenneT offers you the opportunity to contribute to a sustainable energy future. Together with colleagues, partners, and stakeholders, you will work on innovative solutions that enable the energy transition. At TenneT, you will have the space to develop your talent and work in an environment where your growth is central. We offer you:

- A permanent contract with a two-month probation period, based on 32-40 hours per week.
- A salary in scale 8: € 4151 to € 8197 per month with 8% holiday allowance and 6% year-end bonus
- A solid pension via ABP: we pay 70% of your premium.
- 43 vacation days per year.
- Hybrid working, including travel, internet, and home office allowances.
- Support for your vitality, with a contribution for a gym membership and health insurance.
- Development opportunities through the TenneT Academy, so you can continue to expand your knowledge and skills.

- Experience with SAP S/4HANA and SAP's reporting solutions (AfO, BO) is a plus.
- Fluency in Dutch and professional proficiency in English.

This will be our challenge

Business Guidance provides advice for strategic, operational and financial planning and forecasting. We monitor, analyse and improve performance. Business Guidance safeguards TenneT's financial health by ensuring transparency, setting (financial) targets and reporting on the achievement of those targets.

AI and more about TenneT

Since we use AI as part of our recruiting process, we would like to create transparency and clarity at this point. The AI serves exclusively as a supporting and recommending tool to make our processes even faster and more efficient. At no time are automated decisions made.

TenneT is a leading European grid operator. We are committed to providing a secure and reliable supply of electricity 24 hours a day, 365 days a year, while helping to drive the energy transition in our pursuit of a brighter energy future – more sustainable, reliable and affordable than ever before. In our role as the first cross-border Transmission System Operator (TSO) we design, build, maintain and operate over 25,000 kilometres of high-voltage electricity grid in the Netherlands and large parts of Germany, and facilitate the European energy market through our 17 interconnectors to neighbouring countries. We are one of the largest investors in national and international onshore and offshore electricity grids, with a turnover of EUR 9.2 billion and a total asset value of EUR 45 billion. Every day our 8,300 employees take ownership, show courage and make and maintain connections to ensure that the supply and demand of electricity is balanced for over 43 million people.

Lighting the way ahead together
