

## Senior Power BI Specialist

TenneT is growing fast to realize its strategic ambitions. We play a leading role in driving the energy transition. We are looking for a passionate Senior Power BI Specialist at our location Arnhem who will contribute to this and that might be you?

### Your contribution to TenneT

TenneT is committed to providing reliable, sustainable, and affordable energy to its customers. To realize its strategic ambitions, Business Guidance Netherlands (BGN) supports TenneT leaders in decision-making by providing advice on strategic, operational, and financial planning and forecasting.

Within this context, the Data, Analytics, and Process Excellence (DAP) team in BGN plays a leading role. The team develops high-quality, trusted data assets and analytics to enhance operational efficiency, accelerate digital transformation, and lead initiatives promoting a data-driven culture through innovative technology and processes. Our team comprises forward-thinking professionals who are not just adapting to change but driving it.

As a Senior Power BI Specialist within the DAP team, you will play a crucial role in transforming raw financial data into reports and data products. Your expertise in Power BI will drive the development of dynamic reports and dashboards that enable effective financial decision-making and ensure compliance with regulatory standards. You will collaborate closely with cross-functional teams to understand business requirements and deliver innovative solutions that optimize financial performance.

Join our dynamic team and make a meaningful impact on financial performance and decision-making through the power of data-driven insights!

### Your responsibilities as a Senior Power BI Specialist at TenneT:

- **Dashboard Development:** Design, develop, and maintain interactive dashboards and reports using Power BI to accurately and efficiently visualize financial data.
- **Data Analysis:** Conduct in-depth data quality analyses to identify anomalies and opportunities for improvement. Provide insights and recommendations to key stakeholders based on findings.
- **Dimensional Modelling:** use data from the TenneT Data Platform, sometimes combined with other data sources, systems, databases and spreadsheets, to create comprehensive datamodels for reporting purposes.
- **Performance Optimization:** Optimize Power BI reports and queries to enhance performance and scalability, ensuring smooth operation with large datasets.
- **Quality Assurance:** Perform thorough testing and validation of reports to ensure accuracy, completeness, and compliance with regulatory requirements.
- **Documentation:** Create detailed documentation for developed reports, including data sources, transformations, and calculations,

### Additional information

- The weekly working time is 32- 40 hours
- Type of contract is indefinite
- The salary for this role is between €4.675 and €9.196 gross per month based on 40 hours (salary scale 9)

### Our offer

We are family friendly and flexible

Health - your basis

Modern working environment

Attractive remuneration and social benefits

Personal development

Dennis van den Berg

Lead Finance & Control

Dennis.vanden.berg@tennet.eu

- to facilitate knowledge sharing and maintain data integrity.
- **Training and Support:** Provide training and support to end-users on Power BI functionality, best practices, and troubleshooting techniques to maximize adoption across the organization.
- **Continuous Improvement:** Stay informed about industry trends, emerging technologies, and best practices in data visualization and analytics to drive continuous improvement in reporting capabilities.
- **Collaboration:** Work closely with colleagues in the DAP team to achieve shared goals.

## Your profile and background

- Bachelor's degree in Finance, Accounting, Computer Science, Information Systems, or a related field; a Master's degree is preferred.
- Proven experience as a Power BI Developer or Business Intelligence Analyst, with a focus on financial reporting and analysis.
- Advanced proficiency in Power BI, including data modeling, DAX calculations, and visualization design.
- Solid understanding of financial concepts, accounting principles, and regulatory requirements.
- Experience working with large datasets and performing complex data analyses.
- Proficiency in SQL, Excel, and other data manipulation tools.
- Excellent analytical, problem-solving, and communication skills.
- Ability to work independently and collaboratively in a fast-paced environment.
- Relevant certifications, such as Microsoft Certified: Data Analyst Associate or Microsoft Certified: Power BI, are a plus.
- Knowledge of Power Apps and Power Automate is an advantage.
- Experience with SAP S/4HANA and SAP's reporting solutions (AfO, BO) is a plus.
- Fluency in Dutch and professional proficiency in English.

## This will be our challenge

Business Guidance provides advice for strategic, operational and financial planning and forecasting. We monitor, analyse and improve performance. Business Guidance safeguards TenneT's financial health by ensuring transparency, setting (financial) targets and reporting on the achievement of those targets.

## AI and more about TenneT

Since we use AI as part of our recruiting process, we would like to create transparency and clarity at this point. The AI serves exclusively as a supporting and recommending tool to make our processes even faster and more efficient. At no time are automated decisions made.

---

TenneT is a leading European grid operator. We are committed to providing a secure and reliable supply of electricity 24 hours a day, 365 days a year, while helping to drive the energy transition in our pursuit of a brighter energy future – more sustainable, reliable and affordable than ever before. In our role as the first cross-border Transmission System Operator (TSO) we design, build, maintain and operate over 25,000 kilometres of high-voltage electricity grid in the Netherlands and large parts of Germany, and facilitate the European energy market through our 17 interconnectors to neighbouring countries. We are one of the largest investors in national and international onshore and offshore electricity grids, with a turnover of EUR 9.2 billion and a total asset value of EUR 45 billion. Every day our 8,300 employees take ownership, show courage and make and maintain connections to ensure that the supply and demand of electricity is balanced for over 43 million people.
