

Project Management Officer

Tennet is growing fast to realize its strategic ambitions. We play a leading role in driving the energy transition. We are looking for a passionate project management officer at our location Arnhem who will contribute to this and that might be you?

Your contribution to Tennet

PMO – Asset Information Chain

Looking for a role where you can make a real impact on how asset information is managed? As part of the Project Management Office (PMO) team, you'll play a key role in shaping and running the Portfolio Management Process (PMP) for asset information improvement projects.

What you'll do:

- Guide and train stakeholders—like Asset Management, Grid Field Operations, IT, and more—so they can confidently manage the portfolio process themselves.
- Connect the dots by identifying dependencies between projects, always keeping strategic goals, capacity, and investment plans in mind.
- Prepare key deliverables for decision-making meetings, making sure everything runs smoothly.
- Work alongside the PMO coordinator to further develop and refine Portfolio Management methodologies.

What makes this role exciting?

You'll be the go-to person for various teams, helping them streamline their work and drive improvements across the organization. If you enjoy problem-solving, collaboration, and making processes more efficient, this is the perfect opportunity to make an impact!

Your profile and background

- You speak and write fluently in English and Dutch and know how to present your ideas effectively. Strong communication and teamwork skills are a must.
- You're assertive when needed but always keep a good connection with stakeholders at all levels.
- You're comfortable working in a matrix organization, balancing business unit needs with cross-functional teams.
- You thrive in complex environments, keeping the big picture in mind while ensuring progress, collaboration, and on-time delivery. Experience with portfolio management, asset data management, or change management? Even better—especially in the utility sector!
- You've got hands-on experience managing large, complex projects—either as a project manager or in a PMO role, preferably in the utility or public sector.

Additional information

- As per May 1st 2025 or earlier when possible
- The weekly working time is 40 hours
- Type of contract is indefinite or a 1 year contract with intention for indefinite
- Job interviews for this position will be (partly) in English and Dutch. Please send us your application document in English as well

Fabian Chang

fabian.chang@tennet.eu

- You're certified in an agile methodology like SAFe, ideally with a focus on (Agile) Product Management.
- You have a degree in business administration, engineering, or a related field, with a solid understanding of engineering, information science, or math.

This will be our challenge

Asset Management ensures TenneT's sustainable and future-proof asset base. Thanks to our expertise of Asset Management in the technological field, we are able to facilitate. Our Innovative and data-driven approach promotes the energy transition and ensures security of supply.

AI and more about TenneT

Since we use AI as part of our recruiting process, we would like to create transparency and clarity at this point. The AI serves exclusively as a supporting and recommending tool to make our processes even faster and more efficient. At no time are automated decisions made.

TenneT is a leading European grid operator. We are committed to providing a secure and reliable supply of electricity 24 hours a day, 365 days a year, while helping to drive the energy transition in our pursuit of a brighter energy future – more sustainable, reliable and affordable than ever before. In our role as the first cross-border Transmission System Operator (TSO) we design, build, maintain and operate over 25,000 kilometres of high-voltage electricity grid in the Netherlands and large parts of Germany, and facilitate the European energy market through our 17 interconnectors to neighbouring countries. We are one of the largest investors in national and international onshore and offshore electricity grids, with a turnover of EUR 9.2 billion and a total asset value of EUR 45 billion. Every day our 8,300 employees take ownership, show courage and make and maintain connections to ensure that the supply and demand of electricity is balanced for over 43 million people.
