

## Senior Business Controller

TenneT is growing fast to realize its strategic ambitions. We play a leading role in driving the energy transition. We are looking for a passionate Senior Business Controller at our location Arnhem who will contribute to this and that might be you?

### Your contribution to TenneT

Unlock your potential as a Business Controller in a dynamic environment and in the heart of the Energy Transition. Join us in navigating and monitoring progress on the way to achieve the strategic goals and support the responsible Asset Management (AMN) & Energy System Planning (ESN) Unit Management Team to make the best possible decisions.

You navigate and monitor progress on the way to achieve the unit's strategic goals and support the responsible Director(s) to make the best possible decisions. In this role you manage the finance operation and you are responsible for in time, reliable and accurate departmental planning, forecasting and reporting. You support and safeguard the financial well-being of TenneT while taking into account the benefits of all stakeholders as if you were the CFO of the unit.

You ensure the fair presentation of (non) financial information and advocates predictability, reliability and transparency as fundamentals for trust. You develop a strong relation with the responsible Director(s) of the unit(s) in order to guide the unit in achieving their goals. Also you actively contribute to the continuous improvement and development of the department of Business Guidance.

For example, you deal with questions such as:

- Is the performance in line with the strategic goals of the unit and do they support the corporate direction?
- What are the objectives and key results of the unit and how do they influence the in- and output volumes and what are the midterm financial implications?

The team Business Guidance is a dynamic team of several business controllers, project controllers and accountants in which you will perform various activities in continuous collaboration with your colleagues inside and outside the department. In this playing field, you will act as a connector, a challenger, but you will not shy away from a deep dive in order to gain sufficient data. That variety gives you energy! Moreover, you have excellent networking skills and a clear communication style fits you like a glove during meetings with the various internal and external stakeholders.

### Your main tasks and responsibilities:

Your activities vary from week to week and from season to season. You will switch smoothly between retrospective tasks, such as the timely and correct reporting of unit performance, and the more prospective financial prognoses, analyses, assessments and ad-hoc assignments. Further responsibilities are:

### Additional information

- The weekly working time is 32 -40 hours
- Type of contract is indefinite
- The salary for this role is a maximum of EUR 10,831 gross per month based on 40 hours in salary scale 18 of our job classification system (FUCO)

### Our offer

We are family friendly and flexible

Health - your basis

Modern working environment

Attractive remuneration and social benefits

Personal development

## This will be our challenge

Business Guidance provides advice for strategic, operational and financial planning and forecasting. We monitor, analyse and improve performance. Business Guidance safeguards TenneT's financial health by ensuring transparency, setting (financial) targets and reporting on the achievement of those targets.

## AI and more about TenneT

Since we use AI as part of our recruiting process, we would like to create transparency and clarity at this point. The AI serves exclusively as a supporting and recommending tool to make our processes even faster and more efficient. At no time are automated decisions made.

TenneT is a leading European grid operator. We are committed to providing a secure and reliable supply of electricity 24 hours a day, 365 days a year, while helping to drive the energy transition in our pursuit of a brighter energy future – more sustainable, reliable and affordable than ever before. In our role as the first cross-border Transmission System Operator (TSO) we design, build, maintain and operate over 25,000 kilometres of high-voltage electricity grid in the Netherlands and large parts of Germany, and facilitate the European energy market through our 17 interconnectors to neighbouring countries. We are one of the largest investors in national and international onshore and offshore electricity grids, with a turnover of EUR 9.2 billion and a total asset value of EUR 45 billion. Every day our 8,300 employees take ownership, show courage and make and maintain connections to ensure that the supply and demand of electricity is balanced for over 43 million people.
