

Lead Project Execution - Site Management Yard Singapore / Batam

At TenneT, we seek professionals who contribute to the future of our energy grid. As **Lead Project Execution – Site Management**, you will play a key role in the realization of offshore converter platforms within the 2GW Program. Based in **Singapore and Batam (Indonesia)**, you will lead the execution of large-scale infrastructure projects that are essential to the energy transition. Ready to make an impact?

Your contribution to TenneT

Your contribution to TenneT

As Lead Project Execution – Site Management, you are responsible for steering the execution phase of new construction projects on-site. Your leadership ensures that all activities are carried out safely, efficiently, on time, and in a controlled manner.

You will work within the Large Projects Offshore Netherlands (LON) team, specifically in Yard Management, overseeing the GE Vernova Seatrium platform portfolio. This includes three HVDC offshore converter platforms being built in Singapore and Batam, to be installed in the North Sea and connected to the grid at Maasvlakte, Rotterdam.

Your responsibilities include:

- Ensuring the preparation, organization, and management of construction site activities and site staff.
- Monitoring cost development and progress according to schedule.
- Reviewing and accepting delivered work.
- Communicating with internal and external stakeholders about progress, costs, and schedules.
- Preparing reports, evaluations, and safety documentation to project leadership.
- Ensuring compliance with occupational health, safety, and environmental standards.

You will lead a site team of approximately up to 30 FTEs, supported by additional staff from other departments and contractors. The team is responsible for day-to-day quality assurance and supervision at the yard.

Your profile and background

We are looking for a professional with strong technical and leadership skills who can inspire teams and manage complex infrastructure projects.

You bring:

- A Master's degree (MSc or higher) in Mechanical Engineering, Civil Engineering, or Electrical Engineering.
- Extensive experience in the design and construction of Offshore Wind Substations.
- Proven leadership in team development and management.
- A successful track record in offshore or infrastructure projects.
- Fluency in English (Dutch is a plus), with strong communication and stakeholder management skills.
- Analytical thinking, a structured approach, and a result-driven mindset.

Additional information

What we offer

TenneT offers you the opportunity to contribute to a sustainable energy future. Together with colleagues, partners, and stakeholders, you will work on innovative solutions that enable the energy transition. At TenneT, you will have the space to develop your talents in an environment that prioritizes growth. We believe in collaboration, forward-thinking, and innovation. Therefore, we offer:

- A permanent FUCO contract based on scale 18
- Monthly salary between €4,675 and €10,831
- A 44 hour workweek
- Annual allowance and 70% pension contribution
- 30 vacation days per year
- Relocation support for you and your family to Singapore
- Flexible working conditions, including hybrid work options
- Vitality support and development opportunities via the TenneT Academy
- Expat policy during the assignment in Singapore

All mentioned employment conditions apply to a full-time position unless otherwise stated.

An Assessment is part of the selection process.

We encourage initiative and give you the space to bring new ideas. Together, we ensure that the Netherlands keeps moving forward and is prepared for the energy future. Ready to make an impact? Apply today and become part of our team!

If you have any questions about the position, please contact Bianca Kreijger, Recruiter People & Talent Acquisition at Bianca.Kreijger@tennet.eu or +31 6 4216 3962.

Together, we build a sustainable energy future!

The position may get unpublished earlier, so don't hesitate to apply!

Our offer

- Medical fitness for offshore work and willingness to obtain GWO certification.
- Willingness to relocate to Singapore with an expat policy under a Dutch contract.

You are a servant leader who fosters collaboration, continuous learning, and safe execution. You align with TenneT's core values: Courage, Connection, and Ownership.

This will be our challenge

Large Projects Offshore is a key contributor to the energy transition. The Unit is responsible for the current and future development of the offshore grid as a whole and subsequently for the development and realization of the DC interconnectors and the Offshore Wind Farm grid connections in both the German and Dutch sectors of the North Sea.

AI and more about TenneT

Since we use AI as part of our recruiting process, we would like to create transparency and clarity at this point. The AI serves exclusively as a supporting and recommending tool to make our processes even faster and more efficient. At no time are automated decisions made.

TenneT is a leading European grid operator. We are committed to providing a secure and reliable supply of electricity 24 hours a day, 365 days a year, while helping to drive the energy transition in our pursuit of a brighter energy future – more sustainable, reliable and affordable than ever before. In our role as the first cross-border Transmission System Operator (TSO) we design, build, maintain and operate over 25,000 kilometres of high-voltage electricity grid in the Netherlands and large parts of Germany, and facilitate the European energy market through our 17 interconnectors to neighbouring countries. We are one of the largest investors in national and international onshore and offshore electricity grids, with a turnover of EUR 9.2 billion and a total asset value of EUR 45 billion. Every day our 8,300 employees take ownership, show courage and make and maintain connections to ensure that the supply and demand of electricity is balanced for over 43 million people.
