

Asset Specialist Overhead Lines

Do you want to contribute to a reliable and future-proof high-voltage grid? And do you enjoy working with the latest technologies and innovations in overhead connections? Then the role of **Asset Specialist Overhead Lines** at TenneT is tailor-made for you.

Jouw bijdrage aan TenneT

As an Asset Specialist, you'll be working at the very heart of our electricity grid. You will develop policies, define technical requirements, and ensure the quality of our high-voltage lines. Your work is essential to enabling safe, efficient, and sustainable connections.

Your tasks include:

- Technical standards and policies: Developing and managing technical specifications for overhead lines and their components.
- Procurement and contracting support: Providing clear technical requirements, assessing suppliers, and performing audits.
- Quality assurance and supplier management: Ensuring quality via type and FAT tests, and working with suppliers on continuous improvement.
- Technical support for projects: Reviewing design studies and advising project teams on technical matters.
- Innovation and standardization: Representing TenneT in (inter)national committees and collaborating with knowledge institutions on the latest developments.

Who will you work with?

You'll be part of a small, expert team within Asset Management, consisting of four direct colleagues. Together, you'll develop innovative solutions to help TenneT achieve the energy transition.

Jouw profiel en achtergrond

As Asset Specialist Overhead Lines, you are an expert in high-voltage systems. You combine in-depth technical knowledge with strong analytical skills and a hands-on mentality. You're a strong communicator and can easily collaborate with internal and external stakeholders—even in complex situations.

What you bring:

- A completed technical degree at HBO/BSc level or higher, preferably in Electrical Engineering, Power Engineering, Electromechanics, Mechanical Engineering or Civil Engineering with a focus on mechanics and materials.
- At least 5 years of experience in high-voltage technology ($\geq 110\text{kV}$).

Extra informatie

TenneT offers you the opportunity to contribute to a sustainable energy future. Together with colleagues, partners, and stakeholders, you'll work on innovative solutions that enable the energy transition. At TenneT, you are encouraged to grow and develop in an environment that puts your development first.

We offer:

- A permanent contract with a two-month probationary period based on a 40-hour work week;
- A salary in grade 9, ranging from €4,675 to €9,196 per month, plus 8% holiday allowance and a 6% year-end bonus;
- A solid pension scheme via ABP, with TenneT covering 70% of the premium;
- 43 vacation days per year.

All employment conditions mentioned apply to a full-time contract unless stated otherwise.

We encourage initiative and give you the freedom to bring new ideas to the table. Together we keep the Netherlands moving and prepare for the energy of tomorrow.

Ons recruitment process

Via ons sollicitatieformulier kun je binnen enkele seconden reageren. Zodra wij jouw sollicitatie ontvangen zullen wij deze screenen en z.s.m. contact opnemen. De selectieprocedure bestaat uit 2 gesprekken.

- Solid knowledge of standards, regulations, and principles within the high-voltage sector.
- A sharp eye for bottlenecks and the ability to come up with practical and innovative solutions.
- Excellent communication skills in both Dutch and English.
- A proactive attitude towards safety—you actively contribute to a safe working environment for yourself, your colleagues, and suppliers.

You will work closely with engineers, maintenance specialists, project teams, knowledge institutes, and suppliers. Your goal: to realize optimal, future-proof solutions for our overhead connections.

Onze uitdaging

Asset Management ensures a sustainable and future-proof asset base for TenneT.

Thanks to our technological expertise in asset management, we are able to support our innovative and data-driven approach. This accelerates the energy transition and ensures security of supply.

AI en meer over TenneT

Omdat we AI gebruiken als onderdeel van ons wervingsproces, willen we op dit punt graag transparantie en duidelijkheid creëren. Onze AI richt zich uitsluitend op functietitels en vaardigheden die de functie vereist en die mensen bezitten. Wij vinden het belangrijk om te vermelden dat sollicitanten geen nadelen of discriminatie ervaren, omdat wij geen gegevens hebben betreffende geslacht, leeftijd, afkomst of religie en de AI zal daar ook geen conclusies over trekken. De AI dient uitsluitend als ondersteunend en adviserend instrument om onze processen nog sneller en efficiënter te maken. Er worden nooit geautomatiseerde besluiten genomen.

TenneT is een toonaangevende Europese netbeheerder (Transmission System Operator, TSO). Wij zetten ons in voor een veilige en betrouwbare elektriciteitsvoorziening, 24 uur per dag en 365 dagen per jaar. Daarbij stimuleren we de energietransitie met als doel een duurzame, betrouwbare en betaalbare energietoekomst. Als eerste grensoverschrijdende TSO ontwerpen, bouwen, onderhouden en exploiteren we meer dan 25.000 kilometer aan hoogspanningsverbindingen in Nederland en grote delen van Duitsland, en faciliteren we de Europese energiemarkt via de 17 interconnectoren met onze buurlanden. Met een omzet van 9,2 miljard euro en een totale activawaarde van 45 miljard euro zijn we een van de grootste investeerders in nationale en internationale elektriciteitsnetten, zowel onshore als offshore.

Elke dag stellen onze ruim 8.300 medewerkers alles in het werk om tegemoet te komen aan de behoeften van de samenleving door het tonen van eigenaarschap, moed en verbinding. Samen zorgen we ervoor dat meer dan 43 miljoen eindgebruikers op een stabiele elektriciteitsvoorziening kunnen rekenen.

Lighting the way ahead together
